Open yours senses

Auta introduces a new video door entry system concept: AUTA AVANT. With its technological innovation, compact & avant-garde design and its high level of performance & functionalities, this new hands free monitor is an essential complement of the modern home.

Touch screen buttons, changeable front panel covers in a range of colours, and large 5.6" high resolution LCD/TFT screen convert the new AUTA AVANT monitor into a technological and aesthetical exponent that will open your senses to new possibilities.
